

Alaeddine Tabbane

Senior Full-Stack Engineer & Tech Lead - MERN / Angular / Cross-Platform Mobile

Nabeul, Tunisia - (+216) 24 507 935 - alaeddine.tabbane@gmail.com
github.com/AlaeddineTabbane - linkedin.com/in/alaeddine-tabbane

PROFESSIONAL SUMMARY

Tech Lead with 6+ years architecting full-stack products across MERN, Angular/Ionic, and microservices. Ships Web, Android, and iOS from a single codebase and leads teams through code review, CI/CD automation, and AI-assisted workflows (Claude Code, Cursor) that measurably shorten delivery cycles. Translates business goals into scalable architecture end-to-end - frontend to backend to deployment.

CORE COMPETENCIES

React, Next.js, Angular, Ionic, TypeScript, Node.js, Express, NestJS, Spring Boot, Microservices, WebSockets, REST API Design, MongoDB, PostgreSQL, MySQL, Elasticsearch, GitLab CI/CD, Docker, AWS EC2, Auth0 (SSO), Sentry, Playwright, Vitest, Jest, System Architecture, Team Leadership & Mentorship, Agile/Scrum

PROFESSIONAL EXPERIENCE

ScanAlpha - Senior Full-Stack Engineer

07/2025 - Present

- Spearheaded end-to-end development of a cross-platform app delivering **Web, Android, and iOS from one Ionic + Angular codebase**, cutting platform maintenance overhead vs. native builds. - *Ionic, Angular, TypeScript*
- Architected a real-time backend with **Node.js + Express + WebSockets**, supporting live data sync for 12,000 concurrent users. - *Node.js, Express, WebSockets*
- Owned the full mobile release lifecycle through **App Store and Google Play** submissions, with zero critical security findings across releases. - *Android SDK, iOS/Xcode*
- Established automated testing (**Vitest unit + Playwright E2E**) in **GitLab CI/CD**, raising coverage to 95% and reducing manual QA effort by 50%. - *Playwright, Vitest, GitLab CI/CD*
- Optimized mobile bundle size and load performance via Angular modular architecture and Ionic native integrations, improving startup time by 60%. - *Angular, Ionic*
- Integrated **Auth0 SSO** and **Sentry** real-time error tracking, strengthening platform security and cutting mean-time-to-detection of production errors. - *Auth0, Sentry*

Navoy - Technical Lead (MERN)

04/2024 - 07/2025

- Led design, development, and deployment of scalable web apps on the **MERN stack (Next.js, NestJS, PostgreSQL, MongoDB)**, driving architecture decisions across the full product lifecycle. - *Next.js, NestJS, PostgreSQL, MongoDB*
- Led and mentored a team of 3 developers through code reviews and best-practice enforcement, delivering milestones on schedule. - *Code Review, Agile/Scrum*
- Standardized **Claude Code and Cursor AI** team-wide with prompting conventions and AI-assisted review workflows, accelerating delivery by ~30%. - *Claude Code, Cursor AI*
- Refactored NestJS microservices using AI-accelerated cycles, reducing technical-debt turnaround and easing architecture transition overhead. - *NestJS, Microservices*

Devwise - Full-Stack Software Engineer (Subcontract)

06/2024 - 07/2025

- Built responsive Angular interfaces backed by **Spring Boot (Java 17)** services following enterprise best practices. - *Angular, Spring Boot, Java 17*
- Managed and optimized **Oracle and SQL Server** databases, improving query performance and ensuring clean front-to-back integration. - *Oracle, SQL Server, Flyway, Docker, Jenkins*

Marquet-360-Degree (M-360-D) - Technical Lead (Node.js / React.js)

08/2023 - 04/2024

- Led a team of React.js/Node.js developers, shipping new features and improving the existing codebase. - *React, Node.js, Express, Microservices*
- Enforced code quality through reviews and coding standards while owning client communication, requirements, and delivery updates. - *MongoDB, PostgreSQL, Elasticsearch*

Alight - Technical Lead, Front-End (BeExpert)

01/2023 - 08/2023

- Led a front-end team delivering responsive **React + SharePoint SPFX** interfaces on time and to quality standards. - *React, TypeScript, SharePoint SPFX*
- Drove performance optimization, cross-browser compatibility, and accessibility while mentoring team members. - *HTML5, CSS3, Bootstrap*

Alight - Software Developer

07/2020 - 12/2022

- Delivered SharePoint SPFX / React solutions for **5+ enterprise clients including Cofat and Merck**, spanning intranets, document management, and custom Power Apps integrations. - *React, SharePoint, Node.js*

Inscript - Full-Stack Developer

02/2019 - 06/2020

- Built production web apps including a teleconsultation platform (React, Node.js, Firebase, WebRTC, Socket.io) and Vinko's startup-expert matching demo (React, Node.js, MongoDB, AWS EC2). - *React, Node.js, WebRTC, Redux*

SELECTED PROJECTS

- **Automated Trading Bot** (Freelance, 2021-2023) - Engineered Price-Action strategies into algorithms with statistical risk-management models; built a Node.js + React platform with automated backtesting and 24h performance dashboards. - *Node.js, React, MongoDB, AWS EC2*
- **Entrepreneur-Investor Mobile App** (PFE) - Cross-platform React Native (Expo) + Firebase app connecting entrepreneurs and investors. - *React Native, Expo, Firebase*

TECHNICAL SKILLS

- **Frontend:** React, Next.js, Angular, Ionic, TypeScript, HTML5/CSS3, Bootstrap
- **Backend:** Node.js, Express, NestJS, Spring Boot (Java 17), REST, WebSockets, Microservices
- **Databases:** MongoDB, PostgreSQL, MySQL, Oracle, SQL Server, Firebase, Elasticsearch
- **DevOps/Cloud:** GitLab CI/CD, Docker, AWS EC2
- **Testing:** Playwright (E2E), Vitest, Jest
- **Auth/Observability:** Auth0 (SSO), Sentry
- **AI Tooling:** Claude Code, Cursor AI

EDUCATION

- **Engineering Diploma, Networks & Communication** - Gabes National School of Engineering (ENIG), 2015-2019 (*Honors*)
- **Preparatory Cycle, Physics-Chemistry (PC)** - Nabeul Preparatory Institute for Engineering Studies, 2012-2015
